ULTRA 40 RACE WIRE

Now available in Black!

(Hi-Res color photo attached, B/W available upon request)

Moroso **Ultra-40 Race Wire** is the standard in high performance ignition wire. With optimized EMI/RFI resistance, Moroso wire is used in the highest level of racing applications from dual mag Top Fuel Cars thru NASCAR Sprint® Cup Series.

Ultra 40 Wire sets the performance standard. At 8.65mm in diameter and 40 ohms of resistance per foot, Moroso **Ultra-40 Race Wire** incorporates a highly engineered spiral wound conductor. This maximizes energy transfer and minimizes electro magnetic interference (EMI) and radio frequency (RF) interference noise.

THIS COMBINATION RESULTS IN THE ULTIMATE IGNITION WIRE FOR ANY RACE APPLICATION!

PART # DESCRIPTION

UNIVERSAL FIT

- 73814** 90° Universal, Black/Black Boots
- 73815** Straight Universal, Black/Black Boots
- 73816** 135° Universal, Black/Black Boots

CUSTOM FIT

- 73817** SBC, Sleeved, Over Valve Cover, 90° Plug, HEI, Black/Black Boots
- 73818** SBC, Sleeved, Under Header, 90° Plug, HEI, Black/Black Boots
- 73819** BBC, Sleeved, Over Valve Cover, Straight Plug, HEI, Black/Black Boots
- 73820** BBC, Sleeved, Under Header, 90°, HEI, Black/Black Boots
- 73821** BBC, Sleeved, Under Header, 90°, Non-HEI, Black/Black Boots
- 73822** Ford 351W, Sleeved, 135°, HEI Style Cap, Oval Track, Black/Black Boots
